Madigan, Roger
Orie, Jane
Pippy, John (P)
Rafferty, John
Regala, Bob
Robbins, Robert
Waugh, Mike
White, Mary Jo
Wonderling, Robert

P Stands for Prime Sponsor

Pennsylvania Gun Owners roared like a lion twice last year against unreasonable laws that put us ALL at RISK! YOUR VOICE WAS HEARD BUT NEEDS TO BE HEARD AGAIN IN THE HALLS OF GOVERNMENT! This event will once again launch pro-active legislation to correct ABUSES!

Gun Registration:

Rep. Daryl Metcalfe and Senator John Pippy will introduce landmark legislation to finally end the registration of law abiding gun owners.

Self Defense Rights:

Rep. Steve Cappelli's landmark legislation (H.B. 641) 'anti-carjacking' provision extends the traditional 'Castle Doctrine' protections for law abiding citizens to include occupied vehicles. (Safe streets provision provides legal protections for law abiding citizens who 'stand their ground' when attacked by a violent criminal outside of the home. This legislation will provide legal protections for those who risk their lives to keep terrorists and other criminals from stealing firearms, explosives, chemical, biological or radiological products.)

Invited Guest Speakers:

Larry Pratt-Exec. Dir., Gun Owners of America
Dr. John Lott-Scholar and Expert on Gun Control
Kim Stolfer-Chairman, Firearms Owners Against Crime
Melody Zullinger-Exec. Dir., PA Federation of Sportsmen's Clubs
Harry Schneider-Chairman, PA Sportsmen's Association
Mike Stollenwerk-Plaintiff, Social Security # Federal Lawsuit Against Pennsylvania State Police violations of law

YOU NEED to attend this landmark event because it is extremely important to your SAFETY and the DEFENSE of your rights.

The Allegheny County Sportsmen's League (www.acslpa.org) in conjunction with the Pennsylvania Sportsmen's Association, the Pennsylvania Federation of Sportsmen's Clubs (www.pfsc.org), the Pennsylvania Gun Owners Association, Second Amendment Sisters (www.2asisters.net/pa/index.html) and other concerned Pennsylvania 'grassroots' organizations have cooperated in organizing this event.

For information and/or Travel Arrangements (***PA Buses ARE being arranged for this day***) see the websites and contact information above.

More Pro-2nd Amend Legis.

- **State Parks & Concealed Carry.**
- **Emergency CCW License for Domestic Violence Victims.**
- **Hunting Rights & Due Process**
- **PA Employees & CCW**
- **Election Code Changes**
- **Turnover of PICS Responsibilities to the NICS System**
- **Legislation that would protect gun owners and prohibit seizure of firearms during a crisis or emergency.**
- **Alaska style (two-tiered) Concealed Carry of Firearms System.**
- **Eliminate redundant background checks for firearms purchased by individuals licensed to carry a firearm.**

1. Last year we wrote and passed the **Staback Hunter Self Defense Act**.
2. Last year **we blocked passage of gun rationing and gun bans** and dozens of other types of ill-conceived legislation.
3. This year, with your help, we can pass the Cappelli **Castle Doctrine legislation**.
4. This year, with your help we can force the **Pennsylvania State Parks** to obey the law and stop fining permit holders for lawfully doing what they are licensed to do.
5. You can help us protect you from identity thieves by ending the ill-advised practice of forcing you to risk identity theft by giving people your Social Security number for recreational licenses.
6. **Gun registration is illegal in Pennsylvania but the Pennsylvania State Police do it anyway - draining many millions of dollars from genuine law enforcement programs that actually fight crime. Last year we challenged them to produce a COST-BENEFIT ANALYSIS and they cannot do so. Lets work together to stop the squandering of taxpayer money on an illegal program.**
7. **Firearms registration is confiscation in due course.** It happened in Nazi Germany, Soviet Russia, Communist Cambodia, Canada, Australia, New Jersey, New York City and California. Philadelphia politicians and other anti-gun state legislators want to do the same in Pennsylvania. We have laws that prohibit a firearms registry, but the State Police Firearms Unit ignored the law. When taken to court, they argued that the people have no standing to make them obey the law. Three notorious justices of the Pennsylvania Supreme Court (**Cappy, Eakin and Castille**) decided that it is OK to disregard the plain language of the law.
8. In Stalinist Russia you could lose your rights and property without even being convicted of a crime. In PA today you can lose your rights and property without even being convicted of a crime. They call it a PFA.
9. **You can have a voice and make a difference if you work with us!**

The Grassroots organizations, ACSL, PSA, and PFSC, have cooperated in drafting legislation to correct the above injustices and we need YOUR help with lawmakers to pass corrective legislation into law.
